Conference on Environmental Challenges for Sustainable Development : Role of Chemists (August 18-19, 2016)

Colombo, Sri Lanka

Organized by the
College of Chemical Sciences (CCS)
of the Institute of Chemistry Ceylon (I.Chem.C)

We invite researchers and policy-makers to make use of this opportunity to get acquainted with the latest development, challenges faced and legislative actions taken and proposed to mitigate the adverse effects of development on the environment. The conference is also open to postgraduate and undergraduate students with an interest in environment related research to make use of this opportunity to enhance their knowledge by interacting with the senior scientists and policy-makers in the field of environmental science. They are encouraged to submit their research results to an expert audience in their respective fields.

This symposium will focus on:-

- (i) Present status and emerging challenges to the Environment in Sri Lanka owing to improper chemical management
- (ii) Evaluation of the strengths and weaknesses of the present regulatory frameworks for a sustainable environment.
- (iii) Mitigatory and interventional actions required for a sustainable environment.

For Conference, please address all your correspondence to
Prof.O.A.Ileperuma, co-chair - E-mail: oliveri@pdn.ac.lk
